Channel Islands

Economic and Workforce
Development Program,
Ventura College

Military Associates

Naval Base Ventura County
Center for Asymmetric
Warfare

VCEDA has created TRIAD: The Consortium for National Defense, Security and Disaster Preparedness to facilitate the coordination of the military, public and private sectors of the region's economy.

TRIAD is developing specific programs to enhance the future economic development of the military, public and private sectors (TRIAD) in the region.

TRIAD is a "Win-Win-Win" for the Navy, local government, private industry, and the citizens of the entire region.

Your business can join this innovative economic development program and benefit from the opportunity to do business with the US Military and develop profitable synergistic relationships with other local businesses.
